Dear Firenock retail dealer,

On March 3, 2008, the United States District Court for the District of Utah entered a Consent Judgment and Permanent Injunction (“Consent Judgment”), in accordance with an agreement between Easton Technical Products, Inc. (“Easton”), Firenock, LLC, and me. The Consent Judgment and settlement agreement resolved a lawsuit originally filed by Easton against Firenock, LLC and me. A copy of the Consent Judgment is enclosed with this letter.

The Consent Judgment prohibits Firenock, LLC and me from infringing, directly or indirectly, United States Patent No. 6,390,642 (“the '642 patent), and specifically from making, using, selling, offering to sell, or importing the following products: Firenock v1.2, Firenock v1.5, Firenock v2.0s, Firenock v2.0a, Lightning Nock v2.0s, Lightning Nock v2.0c, Lightning Nock v2.01s, Actuator Magnet Pack (FNLN90), Actuator Bracket for Whisker Biscuit Arrow Rest (FNLN91), Actuator Bracket for Trophy Taker Arrow Rest (FNLN92), Extreme Shock Battery End Cap Pack (FNLN93), Bow-Fishing Fiberglass Arrow Adaptor (FNLN94), Actuator Magnet for Bow Fishing (FNLN95), Universal Refresh Pack (FNLN80), Matched Weight Practice Nock (FNLN81), Nock Proof Pack (FNLN82), and any other product that is a part of any of the foregoing products that constitutes the component that enables a lighted arrow nock system to be activated using a magnetic field, regardless of whatever “version” or name Defendants may use to label such products (collectively the “Infringing Products”).

Pursuant to the Consent Judgment and the agreement between Easton, Firenock, LLC and me, Firenock, LLC and I are required to instruct you to stop selling all products defined above and in the Consent Judgment as “Infringing Products.” Accordingly, please stop all sales of the products defined above as Infringing Products and return all such products to Firenock, LLC.

Thank you for your cooperation. Please contact me directly if you have any questions.

Best regards

Dorge Huang
Operating Manager
Firenock, LLC
